

## 2024 North Carolina Development Tier Designations

Raleigh, N.C. – Since 2007, North Carolina has used a three-level system for designating county development tiers. The designations, which are mandated by state law, determine a variety of state funding opportunities to assist in economic development. This report documents the process for calculating tiers and lists counties that have changed tiers since 2023. A statewide county tier map and tier calculations are included for reference.

### How Tier Rankings Are Calculated

The Development Tier Designation statute ([§143B-437.08](#)) provides specific guidelines for calculating annual tier rankings. This process assigns each county to a designation of Tier One (most distressed), Tier Two, or Tier Three (least distressed). Assuming no ties in rankings, the statute requires **40 Tier One, 40 Tier Two, and 20 Tier Three** counties each year. In the event of a tie for the final position as a Tier One or Tier Two county, both counties will be placed in the lower tier.

### Tier Rankings use Four Factors

- **Average unemployment rate** for the most recent twelve months for which data are available (October 2022 – September 2023, NC Dept. of Commerce, LAUS)
- **Median household income** for the most recent twelve months for which data are available (2021, U.S. Census, Small Area Income & Poverty Estimates)
- **Percentage growth in population** for the most recent 36 months for which data are available (July 2019 – July 2022, NC Office of State Budget & Management)
- **Adjusted property tax base per capita** for the most recent taxable year (FY 2023-24, NC Dept. of Public Instruction)

Each county is ranked from 1 to 100 on each variable, making the highest possible *County Rank Sum* 400, and the lowest 4. After calculating the *County Rank Sum*, counties are then ranked from most distressed (1) to least distressed (100) in order to determine their *Economic Distress Rank*. Note that the 2018 Appropriations Act ([S.L. 2018-5](#), Section 15.2.(a)) eliminated several “adjustment factors” that will no longer be used to calculate the final tier ranks, adjustments that previously factored small population sizes and poverty rates into the calculations. In addition, [§143B-437.07.\(d\)](#) calls for the Department of Commerce to publish the state performance statistic for each of the four factors, alongside the county values. Any county underperforming the state average on any of the four factors may request assistance from the

Department to improve their performance on the given factor. A ranked list of each county's performance by indicator, as well as the statewide value, is provided at the end of this document. For comparison, counties may also wish to access [historical tier designations](#). For assistance, please contact David Rhoades at [drhoades@nccommerce.com](mailto:drhoades@nccommerce.com).

### **County Tier Changes in 2024**

Eight counties will change tiers in 2024. Counties moving to a **less distressed** tier include Burke, Davie, Randolph, and Surry. Counties moving to a **more distressed** tier include Avery, Beaufort, Gates, and Pasquotank.

#### **Avery County**

For 2024, Avery County is shifting from Tier Three to Tier Two. The county's economic distress rank is #77 (it was #91 in 2023). This shift was largely driven by a change in the county's population growth rate rank, which moved from #81 last year to #54 this year.

#### **Beaufort County**

For 2024, Beaufort County is shifting from Tier Two to Tier One. The county's economic distress rank is #34 (it was #45 in 2023). This shift was largely driven by a change in the county's unemployment rate rank, which moved from #43 last year to #34 this year.

#### **Burke County**

For 2024, Burke County is shifting from Tier One to Tier Two. The county's economic distress rank is #50 (it was #33 in 2023). Compared to last year, the county's population growth rank and median household income rank both improved.

#### **Davie County**

For 2024, Davie County is shifting from Tier Two to Tier Three. The county's economic distress rank is #81 (it was #77 in 2023). This shift was largely driven by a change in the county's unemployment rate rank, which moved from #74 last year to #82 this year.

#### **Gates County**

For 2024, Gates County is shifting from Tier Two to Tier One. The county's economic distress rank is #38 (it was #41 in 2023). This shift was largely driven by a change in the county's unemployment rate rank, which moved from #73 last year to #60 this year.

#### **Pasquotank County**

For 2024, Pasquotank County is shifting from Tier Two to Tier One. The county's economic distress rank is #31 (it was #43 in 2023). This shift was largely driven by a change in the county's median household income rank, which moved from #73 last year to #45 this year.

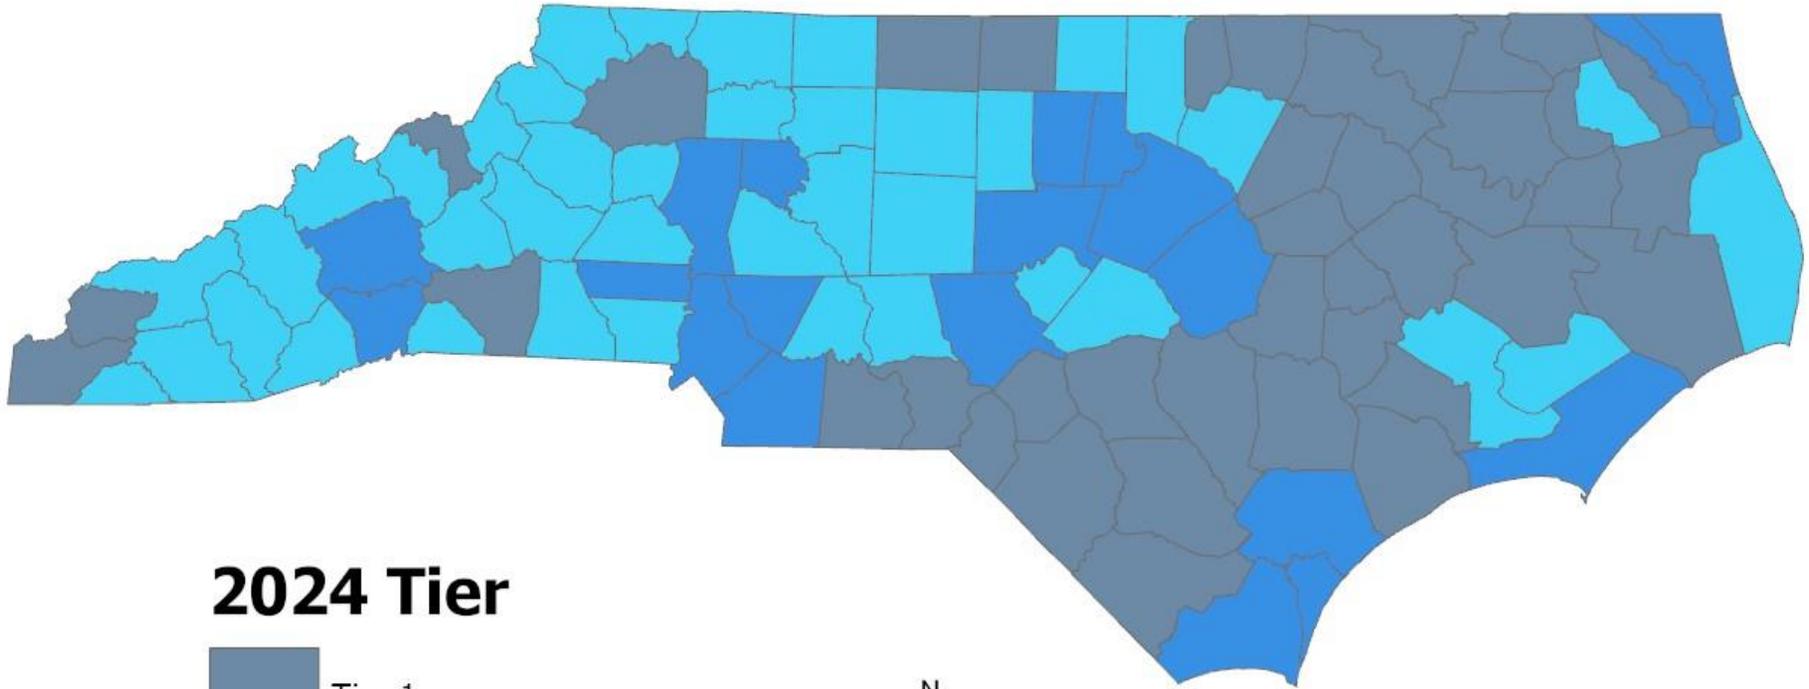

**Randolph County**

For 2024, Randolph County is shifting from Tier One to Tier Two. The county's economic distress rank is #44 (it was #39 in 2023). This shift was largely driven by a change in the county's median household income rank, which moved from #38 last year to #66 this year.

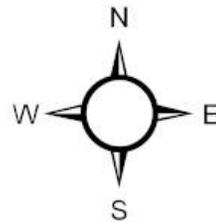

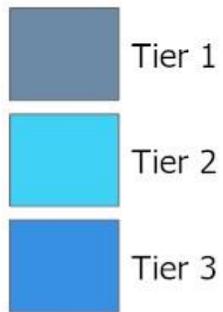

**Surry County**

For 2024, Surry County is shifting from Tier One to Tier Two. The county's economic distress rank is #45 (it was #38 in 2023). This shift was largely driven by a change in the county's median household income rank, which moved from #30 last year to #48 this year.
