General Information – Job Retention at Non-Project Location(s)

Non-Project Location(s) Retention – Questions 12 & 13

- Both questions 12 and 13 **must** be answered, “Yes” or “No”.
- If **both** are “No”, “Do Not Complete” will appear on the Non-Project Employment Profile worksheet.
- Otherwise, the Grantee and/or Related Member/Affiliate **must** complete the Non-Project Employment Profile.

Non-Project Locations are NC locations with NC jobs, but not included in the definition of the Project or the Facility as defined in Sections 1.19 and 1.33 of the CEDA.

General Information – Remote Workers

Commerce has adopted standardized treatment for **remote workers** under the Job Development Investment Grant (JDIG) Program.

“New Employee” means a Full-Time Employee hired for the Project and employed at the Facility and reporting there at least four days a month, who represents a net increase in the number of the Company’s employees in North Carolina [over the Retained Employment] and who is not a worker with an H-1B visa or with H-1B status.

“New Remote Employee” means a Full-Time Employee hired for the Project, assigned to the Facility and working from a home-office within the State or a satellite location within the State, who represents a net increase in the number of the Company’s employees in North Carolina [over the Retained Employment] and who is not a worker with an H-1B visa or with H-1B status.

General Information – Remote Workers

New Remote Employee – Question #14

- **If Yes:**
 - A separate **Remote Worker** Employment Profile must be completed for each entity that employed North Carolina New Remote Employees during the grant year.
- **If No:**
 - The Grantee confirms that **ALL** employees reported **ON** the Project Location Employment Profile(s) **physically reported to** the project location(s) as defined in the CEDA at least four (4) days a month AND were NOT located at a satellite or remote office.

General Information – Base Period - Transfers from OUTSIDE North Carolina

Is 2025 in the JDIG Base Period as defined by Section 1.6 of the CEDA? Question 15

Use the drop-down box to answer this question – “Yes” or “No”.

The JDIG Base Period is the job creation period during which the base level of eligible positions is measured, commencing on the Effective Date and ending on the date provided in Section 1.6.

If Yes, provide the number of eligible employees transferred from any CEDA entity (Grantee, Guarantor, or Related Member) to the Project Location from a facility located outside North Carolina between January 1 and December 31, 2025.

The General Assembly has requested a report on the number of eligible employees transferred from locations outside North Carolina and employed by the JDIG Grantee, Guarantor or Related Member Party(ies) during the Base Period (as defined in Section 1.6 of the CEDA).

General Information – H-1B Visa

*Statutory Change effective June 12, 2018: § 143B-437.51 changed the definition of a Full time employee to a person who is employed for consideration for at least 35 hours a week, whose wages are subject to withholding under Article 4A of Chapter 105 of the General Statutes, who is **not a worker with an H-1 B visa or with H-1 B status**, and who is determined by the Committee to be employed in a permanent position according to criteria it develops in consultation with the Attorney General. The term does not include any person who works as an independent contractor or on a consulting basis for the business.*

General Information – H-1B Visa

Verification of Visa Status – Question 16

For awards on or after 6.12.18:

- a) Provide the number of Eligible (E) H-1 B visa holders reported*
- b) Provide the number of Non-eligible (N) H-1 B visa holders reported*

Note: For awards prior to 6.12.18, once the effective date of the CEDA is input in question 1(b), questions 16(a) and 16(b), will automatically say “Not Applicable”.

Verification of Investment/Capital Expenditures

- The investment requirement is outlined in the CEDA in Section 3.3. If Reserved is listed in that section, the grant does not have an investment requirement.
- Provide a company-generated fixed asset report in Excel format, listing each fixed asset that was in service at the project location after the effective date of the JDIG award, and that continued to be in service as of the end of the Grant Year.
- Assets placed in service prior to effective date of the JDIG award or assets transferred to the facility from within North Carolina should NOT be included in the report.
- When listing assets transferred to the facility from outside of North Carolina, provide the book value at the time of transfer rather than the original cost.

Verification of Capital Expenditures

- The report should be an **unlocked Excel** spreadsheet which includes:
 - *Asset description*
 - *Asset classification*
 - *Cost (not depreciated value)*
 - *In-service date for each asset*
- Once the company has reached the investment requirement threshold, even if it is before the CEDA deadline, 10% will be added to the overall compliance rating calculation.
- It is **NOT** necessary to file a fixed asset report if (i) the Grantee has previously met its required capital investment; **OR** (ii) the investment is **NOT** due and **NOT** yet met.

Reporting Notice

- This worksheet contains a Notice of Reporting Requirements (“Notice”) which outlines deadlines and remedies for failing to comply with the Notice.
- This Notice informs Grantees that a failure to file by **March 1** is a default and will result in the Grantee being ineligible for a grant payment for the grant year.
- Failure to file a GAR by Dec. 31 would result in termination from the JDIG program.

Certifications

- Section 3.7(b) of the CEDA requires multiple Certifications by the company, guarantor and related members.
- Acknowledge that you have read and understand each certification, and that the certification applies by checking the corresponding box.
- A detailed explanation for each certification that is not checked should be uploaded with the GAR materials.
- The completed Certifications document(s) must be signed, notarized and uploaded.
- Electronic signatures and notaries are acceptable.

Default Policy

- A grant is in performance default when the compliance rating during a grant year is below 100% compliance.
- If a Grantee is in default but achieves a compliance rating of at least 80% or above, a prorated grant payment may be made.
- Payments for performance below 100% may occur only twice consecutively **during the Base Period**.
- If a grantee that is still in its Base Period remains in the program and experiences a third year of Performance Default, no grant payment is permitted for that year, or for any subsequent year of default.

Default Policy

- No payment will be made for compliance ratings below 80% (or 70% in a Tier 1 county).
- If the grantee is in default in the last year of its Base Period and demonstrates that it expects to achieve compliance within the following two years, an Extended Base Period, for up to 24 months, may be requested.
- If in default for 2 consecutive years after the base period or extended base period or if in default at the end of the extended base period, the grant will be terminated.

Default Policy

- The JDIG statute requires the Grantee to maintain operations at the project location for at least one hundred fifty percent (150%) of the grant term. This date is found in the 1st paragraph of the CEDA.
- The statute outlines a recapture policy if the business does not remain at the project site for the required 150% term length (§143B-437.57(a)(10)).

Shortfall Explanation

If a Grant is in default, a shortfall explanation is **required**.

The explanation must be **dated** on **company letterhead**, **signed by a company official** and include:

1. The **cause of default**: i.e. Economic downturn, loss of contracts, restructure in business plan
2. If and how the Grantee plans to **remedy** the default: i.e. New contracts, revised business plan
3. The **timing** associated with the remedy: i.e. Expect to be back in compliance in 2025 or 2026.
Note: The timing to be back into compliance must be by the end of the base period or extended base period.
4. Explanations should be on a **separate** Word or PDF, **not** included in the body of an email.

*If the grant is in default in the last year of the base period, and a Base Period extension is requested, please **include** the request in the **dated** shortfall explanation.*

Compliance Rating

- When the required investment has been made, or the investment requirement has been triggered:
 - 70% job creation
 - 20% wages
 - 10% investment
- When the investment requirement has not yet been triggered, or when investment is not a component of a company's CEDA:
