**DEPARTMENT of
COMMERCE**

GULF WIND TECHNOLOGY

Vision

Gulf Wind Technology is dedicated to improving the economic performance of operational wind farms and innovating in the field of rotors. We are America's rotor technology specialists.

Mission

Helping the market lower energy costs by bridging the rotor and blade technology gap between established operators and OEMs.

Unique Value Proposition

Combining data driven rotor analysis with cutting-edge composite technology. We hold the experience, expertise and assets to implement de-risked technology solutions faster than anyone else in the energy industry.

WIND REQUIRES SCALE

QUALITY
AT SCALE
IS NOT TRIVIAL
